Summary

I am an young graphics developer who has 4 years program experience. successful $1MM+ projects. I am passionate about building high quality apps I am able to execute end-to-end on a product or project.

Specialties

Authoring great user experiences with openGL(include ES and web), HTML5+CSS, C/C++ ,Lua; use cocos2d-x,uinity3d for a lone time .

Experience

C/C++ Developer at MoChang inc

January 2014 - July 2015

In the company mainly engaged in cocos2d-x game production and maintenance work, the use of C + + reconstruction code, configure more functional modules, learning a lot of C + + basic syntax and table driver, plug-in architecture and other commonly used language design patterns. As a result of my work in biotechnology, this is a challenge. In this company I worked for a year, shelved some of the more simple children's games, a large number of functional modules reuse and maintenance.

These are languages, tools, and practices to which I have had exposure over the past 4 years or so. Those things which enjoy routine usage in my daily work are denoted with a † symbol.

Programming Languages

- C/C++†
- Lua†
- javaScript†
- java
- object-C
- jason†
- xml†
- C#
- shader†

Markup/Templating Languages & Preprocessors

- CSS†

- HTML†

- Markdown†

- XML

- jason

- http

-

Frameworks & APIs

- OpenGL web,ES,glut,glew...†

- Boost

- Cocos2d-x†

- Uinity3d

- hexo†

Software & Tools

- Apple Xcode
- Git†

- JIRA†
- Mac OS X†
- MySQL
- Nginx
- Pandoc
- Sublime Text
- Subversion
- Ubuntu Linux
- Vim†
- WebStorm
- zsh†
- source tree
- VisualStudio†
- AndroidStudio
- grub/grub2
- doxygen
- latex

Education

[YangZhou University], 2008 - 2012

Interests

- Playing board and card games (and video games, too)
- Making and listening to music
- Watching and contributing to Open Source Software
